

# CAREERS NEWSLETTER

This newsletter is a collation of all the opportunities we have heard about from employers and universities. Please use the links included to read more information and apply to anything you are interested in. Links are underlined.

## OPPORTUNITIES

18th-22nd March 2024 is Neurodiversity week! There are a range of panel discussions, with inspirational speakers from a range of backgrounds and professions. The discussions will all be focussing on key neurodiversity topics, and aim to educate while inspiring conversations about neurodiversity. All events are free of charge and open to all.

As well as taking part in the events, you can also check out the Neurodiversity Week resource hub which includes a range of guides, booklets and even a comic book.

Whether you're into writing or producing, lighting or sound, performing on stage or making it happen backstage – there's something for you with the National Theatre. They work with young people aged 13–25 to explore every aspect of theatre-making. Join in where you are, online. Read more here.

Do you know you want to work in the Music industry but unsure which job role is right for you? Use the new Careers in Music quiz to explore your options.

The Foyle Young Poets of the Year Award 2024 is open for entries! The competition is open to anyone aged 11–17. The deadline to enter your poem/s is midnight BST 31 July 2024.

Within the NGTU International Women's Day resource, you can find inspiring stories from a range of female apprentices working in a variety of roles across the UK.

Are you interested in Digital Careers? If so, the new website "Get into Digital" from Microsoft and Get my First Job will be of interest.

## JOB OF THE WEEK

This week's video focuses on the job role of a Acoustician.

They specialise in the study of sound. The application of acoustics is present in almost all aspects of life, including designing a concert hall, helping people with hearing impairments, investigating communication in marine animals, or researching the way in which sound travels underwater.

Watch the video to learn more.

## LABOUR MARKET INFORMATION FACT

The landscape of the job market is continuously evolving, influenced by technological advancements, societal changes, and the global economy.

Based on the latest trends and data from last year, JAC International have put together an insider's guide to the careers shaping our world right now.
